

Name _____

Two Digit Addition : Regrouping.

When we are doing two or more digit addition; rules to follow are;

- Always start from "Ones House".
- When "Ones House" sum addition is 2 digit, then number from "Ones House" will stay in "Ones House" But number from "Tens House" will go to stay in "Tens House".
- Then we do the addition of Tens House to find the sum.
- In short we call it, "Regrouping".
- Example:

	3	7
+	3	4

	4	5
+	2	5

	7	7
+	1	4

	6	8
+	2	6

	1	9
+	3	4

	3	6
+	2	6

	5	7
+	3	8

	3	9
+	1	7
