Name _____

Two Digit Addition : Regrouping.

When we do two or more digit addition; rules to follow are;

❑ Always start from "Ones House".

❑ When "Ones House" sum addition is 2 digit, then number from "Ones House" will stay in "Ones House" But number from "Tens House" will go to stay in "Tens House".

❑ Then we do the addition of Tens House to find the sum.

❑ In short we call it, "Regrouping".

❑ Example:
