Division

❖ Solve the following division. ❖

⌘ **Tips:**

- ⌘ Before learning division, learning the multiplication table helps to great extend.
- ⌘ In division, we always start from left unlike other math operation.

Solution:

- ⌘ **Step 1:** Check the first number if it is in 4s table. 8 is in 4s table. 2 times 4 is 8. Write 2 in Answer area and subtract that number.
- ⌘ **Step 2:** Move to the next number. If that number is not in 4s table, write 0 in answer area and move to next number. In this case, 2 is not in 4s table so we will move to next number.
- ⌘ **Step 3:** the next number is 0. Previous number 2 and 0 together makes 20 and 5 times 4 is 20 so we write 5 in answer area and subtract that number from "dividend". Remainder is 0 and hence we complete solving this division.

$$\begin{array}{r} \square \\ 3 \overline{) 915} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 2 \overline{) 186} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 4 \overline{) 168} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 6 \overline{) 642} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 8 \overline{) 848} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 7 \overline{) 357} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 9 \overline{) 927} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 2 \overline{) 614} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 3 \overline{) 621} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 7 \overline{) 742} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 4 \overline{) 204} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 12 \overline{) 120} \\ \hline \end{array}$$
