

Verbs - Present tense

A verb is the most important word in a sentence; without it, the sentence would not make sense. Verbs show an action, occurrence, or state of being (*exist*).

All sentences require both a verb and a subject (a noun or pronoun).

For example: A monkey climbed the tree.

Example Present tense : see
Perfect present tense: has seen

The present perfect simple is used to connect the past to the present. The time of the action is often unspecified, and the focus is more on the result rather than the action.
