

Verbs - Future Tense

A verb is the most important word in a sentence; without it, the sentence would not make sense. Verbs show an action, occurrence, or state of being (*exist*).

All sentences require both a verb and a subject (a noun or pronoun).

For example: A monkey climbed the tree.

Subject ↗ ↖ Verb

The future continuous tense, sometimes also referred to as the future progressive tense, is a verb tense that indicates that something will occur in the future and continue for an expected length of time. It is formed using the construction will + be + the present participle (the root verb + -ing).

Select the correct Continuous Future Tense from the options
